As befits an engineering organization, technical personnel comprise almost two-thirds of the total staff strength of around 500. Of these, around 80 high caliber professionals in engineering, finance and business administration take managerial responsibilities at the four regional headquarters in Dhaka and Sylhet. Project Managers, Engineers, Quantity Surveyors, Supervisors, Surveyors, Overseers, Foremen, Commercial Managers, Commercial Assistants, Stores and Material Management Personnel, Safety Engineers, Quality Assurance Engineers... a diverse array of skills blended together, to work as a team for common goal in perfect harmony.

It is remarkable how men from such diverse backgrounds and stations in life establish such perfect rapport. This is made possible by placing the high value on every individuals sense of responsibility, professional skills and ability to exercise his initiative and judgement, while working as team member.

Training also plays an important role in our management. We impart training to our professionals and supporting staffs in the up-to-date technology, techniques and in the philosophy of modern management to expertise each in his field of activities to render services to our customer's needs.

Our Vision

OUR VISION is to be an exemplary leader in Bangladesh providing quality service to all our Esteemed Clients.

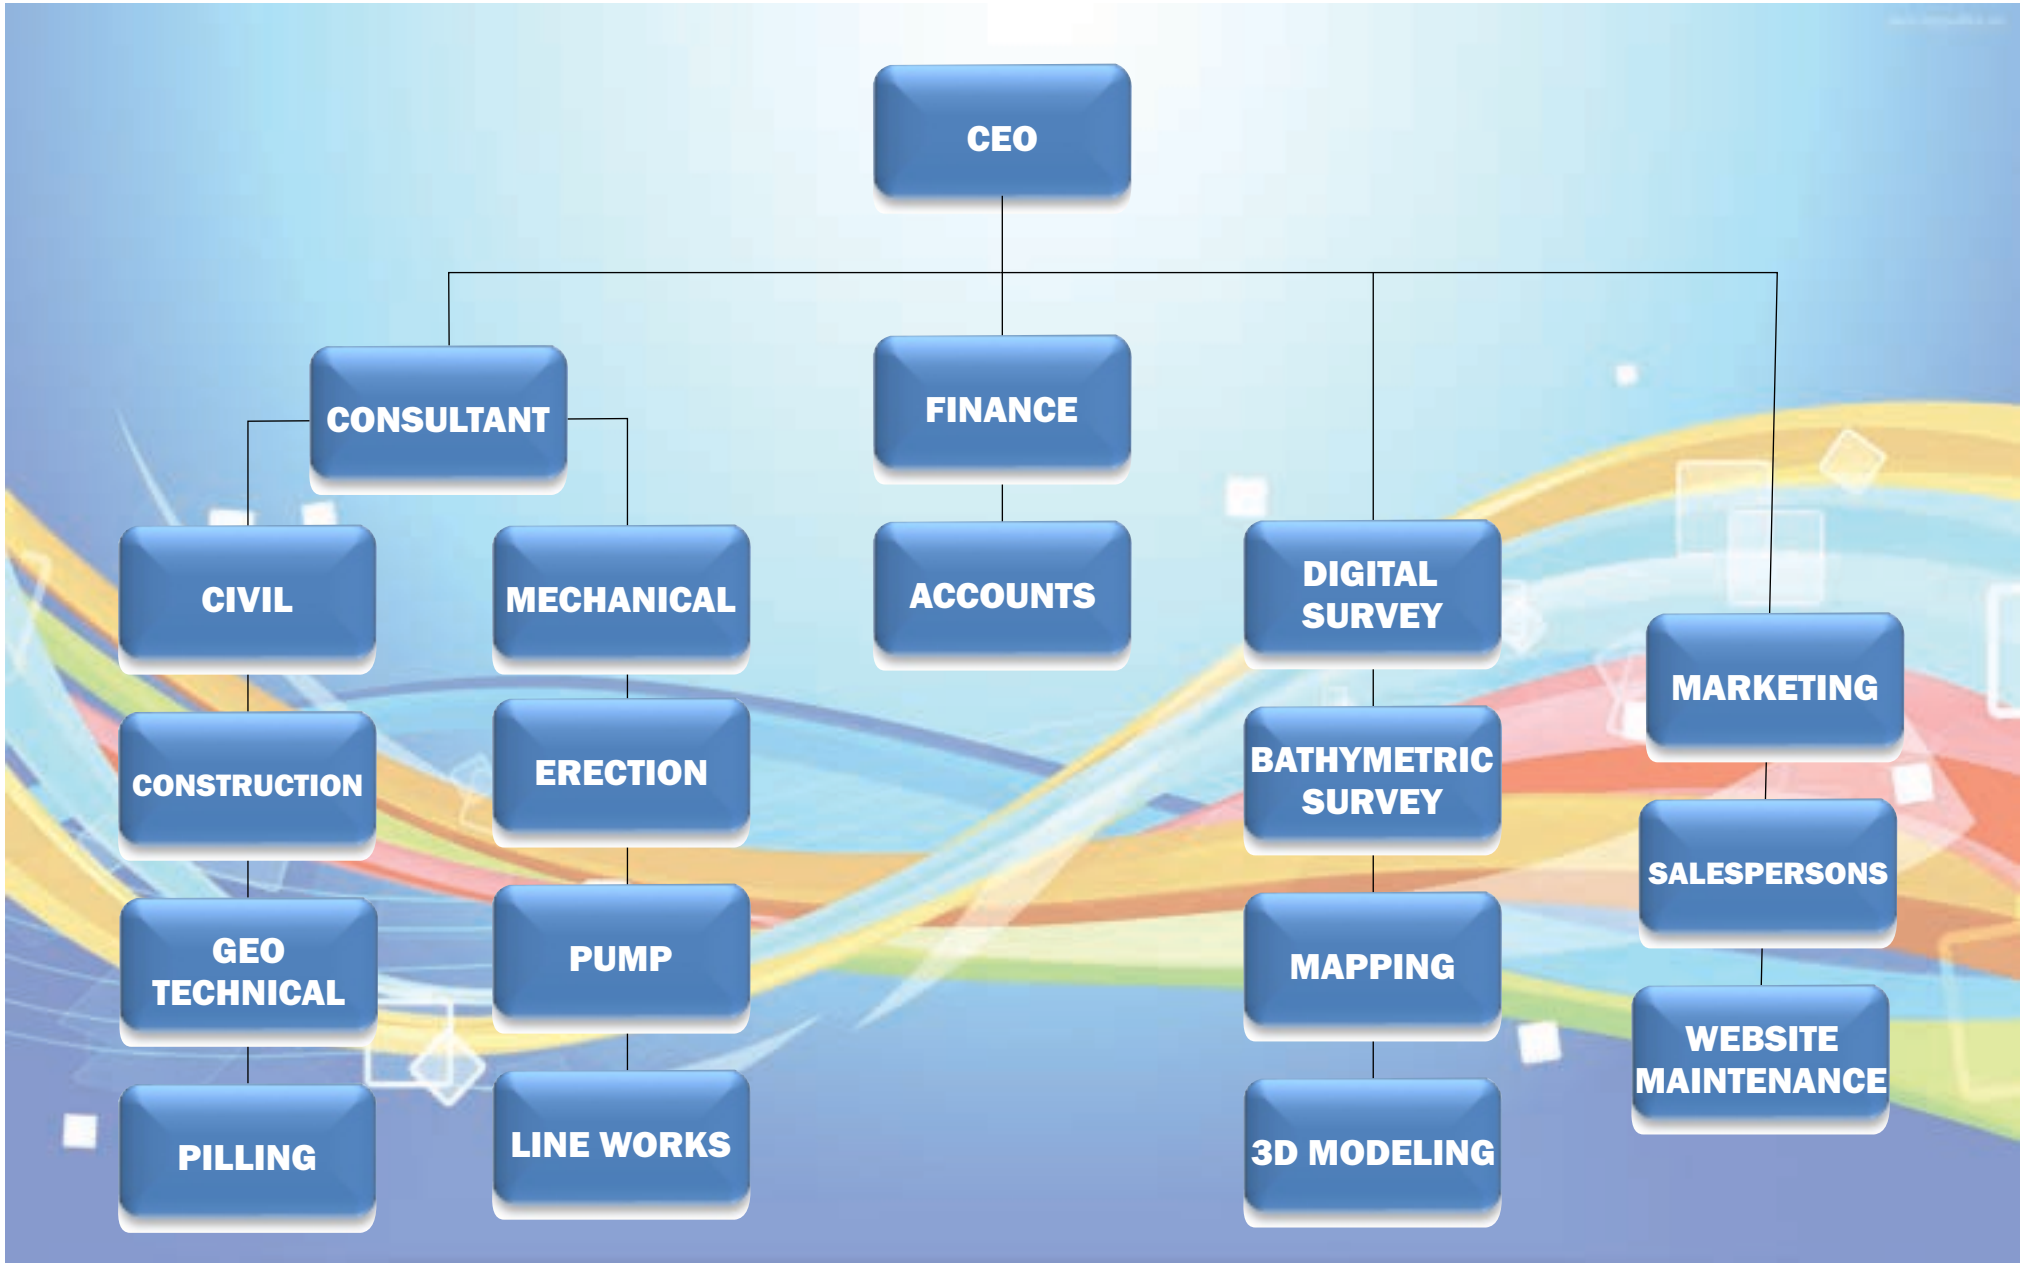

Our Mission

OUR MISSION is to build a Strong, Viable and Long term Relationship with our Customer, by providing excellent service conforming to International Standards in a short span of time.

Our Values

WE UPHOLD the values of Mutual Respect, Unwavering Integrity, Responsive Teamwork and Selfless Service.
